Change Notification Letter

Date Issued: April 28, 2020

Change Notification Number: 2280

Subject: Internal Change of NewAge Compound Numbers for Specified Silicone Product Offerings

Effective Date: Immediate

Dear Valued Customer,

This letter serves as formal notification of changes that may affect products or services purchased by your organization.

Scope of Notification:

NewAge Industries is changing both the liner compound and jacket compound numbers for the following silicone products.

- The liner compound will change from NI117 to NI119 and the outer jacket compound will change from NI118 to NI120.
- As an internal improvement, the catalyst is now being added at the compound manufacturer facility instead of at NewAge Industries, thus providing a finished compound directly from the manufacturer.
- Nothing has changed from a Form Fit Function (FFF) format.
- The change would be seen on a Certificate of Compliance in the Material Identifier section which would now state NI118 and / or NI120, where applicable. Customers must request a Certificate of Compliance at the time product is ordered.
- Part #'s / Product Lines effected:
 - Part # Series: 281 – Silcon® Medical
 - Part # Series: 290 – Silbrade®
 - Part # Series: 291 – Silbrade Medical
 - Custom Parts (C281, C290, and C291) will be updated upon placement of future orders.

Should you have any questions regarding this notice, please contact your Customer Service Representative at 215-526-2151. Other Change Notifications and details about our change notification policy can be found on our website at <http://www.newageindustries.com/change-notifications.asp>. Thank you for your continued support of NewAge Industries.
